How to identify these patients?

Select Group/Practice: Select Provider(s):
 Select a Program: **Cardiac Risk Mngt** Select Patient Search Category: **Patient overdue for visit, Patient**
 Sort Order: **Sort patients by the Total Count of Non-compliant Services**

1 of 1 | 100% | Find | Next | Select a format | Export

GRIPA connect **GRIPA Accountable Care Medical Program**
Patient Outreach

The Accountable Care Medical Program targets GRIPA contracted members with specific conditions who need appropriate office visits, blood tests, and related care. Information about each patient that meets the filtering criteria for this report is listed below. The "Managed Condition(s)" information provides known conditions associated with a patient relevant to the GRIPA Accountable Care Medical Program. The "Total Count of Non-compliant Services" reflects all services targeted by the GRIPA Accountable Care Medical Program for which a patient is non-compliant.

Patient Name (Member Contract) (Provider)	DOB	Age	Managed Condition(s)	Total Count of Non-compliant Services	Service Needed	Last Known Test or Visit relevant to the Service Needed Date Details: (Result displayed where available)
(RHS)	6/24/1951	59	DM, HTN, Hyperlipidemia	3	<ul style="list-style-type: none"> • Office Visit in last 6 months (DM, HTN) • Most recent A1c result in last 12 months = 7% • =>1 A1c in last 6 months 	5/25/2010 Semi-Annual Physician Visit 401 5- HYPERTENSION UNSPEC I
(Essene)	8/1/1944	66	DM, HTN, Obesity	3	<ul style="list-style-type: none"> • Most recent LDL result in last 12 months = 100mg/dL • =>1 A1c in last 6 months • Diabetes neuropathy Screening in last 12 months 	2/17/2010 LDL: 106 1/25/2008 A1c: 8.4 1/25/2008 Microalbumin/Creat Ratio: see below Urine Microalbumin: <0.5 Urine Microalbumin: 5.0

February 2010 LDL = 106 (Red box with arrow pointing to 2/17/2010 LDL: 106)

Overdue labs (Red box with arrow pointing to 1/25/2008 A1c: 8.4)
